

CATHOLIC

MENTAL HEALTH

PROFESSIONALS

IN THE

DIOCESE OF

HARRISBURG

This directory includes a list of mental health professionals who serve clients within south-central Pennsylvania. It is designed to be user-friendly for parish staff, mental health professionals, and prospective clients alike. All of the information in this directory is public knowledge and may be shared, including contact information.

The directory is designed to help you find the right mental health professional for your situation, including information about:

- geographic location
- types of clients served (e.g. children, teens, seniors)
- disorders treated (e.g. depression, addictions, dementia)
- mental health evaluations administered
- licensing information
- whether he/she participates with insurance

Note also that these psychotherapists have self-identified as Catholic and incorporate a Catholic view of the human person in their practice. Although they have each been recommended by priests, parish staff, or other Catholic counselors, inclusion in this directory does not entail an endorsement of any particular mental health professional by the Diocese of Harrisburg. Clients should make their own assessment about whether any particular mental health professional represents a good fit for them.
